Forward-looking statements in this press release include, but are not limited to, statements regarding our anticipated future operating results and financial position, including for the full year ending December 31, 2023, our business strategy and plans, our objectives for future operations and financial performance and other matters. You are cautioned not to place undue reliance on these forward-looking statements. Forward-looking statements are only predictions based on our current expectations, estimates, and assumptions, valid only as of the date they are made, and subject to risks and uncertainties, some of which we are not currently aware.

#### **Use of Non-GAAP Financial Measures**

This press release contains supplemental financial information determined by methods other than in accordance with accounting principles generally accepted in the United States (GAAP), including references to adjusted EBITDA, a non-GAAP financial measure that excludes from net income the effects of income tax provision, other income (expense), interest expense, (loss) income from equity method investment, depreciation and amortization, and stock-based compensation. We believe the presentation of adjusted EBITDA is useful as it provides visibility to our underlying continuing operating performance by excluding the impact of certain items that are non-cash in nature or not related to our core business operations.

Our definition of adjusted EBITDA may differ from similarly titled measures used by others. Adjusted EBITDA should be considered supplemental to, and not a substitute for, financial information prepared in accordance with GAAP. Because adjusted EBITDA excludes the effect of items that increase or decrease our reported results of operations, management strongly encourages investors to review, when they become available, our consolidated financial statements and publicly filed reports in their entirety. A reconciliation of adjusted EBITDA to net income has been provided in the financial statement tables included in this press release, and investors are encouraged to review the reconciliation.
